LPAA – Join the LPAA (5/5)

Criteria

There are several criteria for an initiative to be included in the LPAA. It must:

- **Be cooperative, be inclusive, open and regionally balance.**
- **Be ambitious:** short and long term quantifiable targets – transformative actions guided by a 2° C and resilient pathway.
- **Be science based:** Address a concrete impact of climate change mitigation or adaptation issues to get us on a resilient and below 2° C pathway.
- **Have the capacity to deliver.** Ability to directly deliver and implement commitments.
- **Showcase implementation** of existing commitments (sufficient level of maturity in Paris)
- **Follow-up and report.** Ready to report on implementation.

Communication and Mobilization for Paris (2/3)

Implementation

How ?

- **International media coverage** : TV and press journalists from around the world
- **Great mobilization of the social networks**
- **Empowerment of the LPAA Focus' leaders to communicate** through an agreed communication plan

When ?

- **During the 'LPAA sequence'** (Thematic Focuses + Action Day) – *30th November to 8th December*
- **From now and after the COP21**, commitments should be displayed on **NAZCA/ LPAA** website.

Communication and mobilization for Paris (3/3)

The LPAA/NAZCA website

NAZCA = Non-State Actor Zone for Climate Action:

Launched in Lima, the NAZCA portal aims at highlighting **the scale of individual commitments by non-State actors and cooperative action** involving both state and non state actors.

The platform collects, showcases and tracks progress.

NAZCA displays the stakeholders commitments uploaded from data partners.

LPAA pages:

Provides information on the LPAA along the year and in Paris and further details to **showcase LPAA labelled initiatives**.

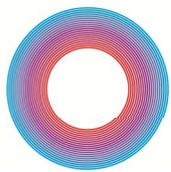

The registered initiatives are assessed according to **criteria of the LPAA**.

The website is **under construction** and will be released in the coming weeks.

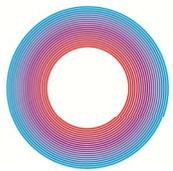

The image displays two website screenshots. The left screenshot is for the NAZCA website, featuring a search bar, a statistics dashboard showing 400 cities, 75 regions, and 2,764 total commitments, and a list of newly added commitments from various entities. The right screenshot is for the LPAA website, featuring a navigation menu, a search bar, and social media links.

LPAA – Lessons learned and way forward

- High-level leadership of the process is needed,
- A dedicated support team is essential: to track, coordinate, trigger, engage, and support initiatives.
- Clearly established governance – it may take 1-3 years for initiatives to ramp-up and deliver. Useful to have had the 4 Partners to ensure complementary perspectives and roles.
- General principles and minimum scrutiny are necessary to ensure robustness and credibility to the process.
 - How to keep the dynamic after Paris?
 - How could the technical examination process of the Workstream 2 harvest the energy of the LPAA to improve its work after Paris?

Thank you !
